CHARTER OF THE
SCIENCE AND TECHNOLOGY COMMITTEE
OF THE BOARD OF DIRECTORS
OF NKARTA, INC.

1. Purpose. The Science and Technology Committee (the "Committee") is appointed by the Board of Directors (the "Board") of Nkarta, Inc. (the "Company") to serve in an advisory capacity to the Board and management with respect to:

- the Company's research and development ("R&D") strategy, Chemistry Manufacturing and Controls ("CMC") strategy, and clinical and regulatory strategy;
- emerging or evolving scientific, technological, medical, or clinical issues of importance to the Company, including as related to achieving the Company's R&D, CMC, clinical and regulatory strategies; and
- scientific, technical, clinical, and regulatory considerations and risks associated with the Company's R&D, CMC, clinical and regulatory strategies.

The Committee's role is advisory. While the Committee has the responsibilities set forth in this charter, it is not the duty of the Committee to oversee or manage day-to-day scientific, technical or clinical issues. These are the responsibilities of management.

2. Membership. The Committee shall be comprised of at least two (2) members of the Board. The members of the Committee shall be appointed by the Board and shall serve until the earlier of their resignation or removal by the Board in its discretion.

The members of the Committee shall be appointed by and serve at the discretion of the Board. Committee members may be removed at any time by the Board. The Board will appoint one member of the Committee to serve as the Chairperson of the Committee (or, at the Board's discretion, two members to serve as co-Chairpersons of the Committee).

3. Organization and Operations.

- **Meetings**. The Committee shall not be required to meet as a committee or on any regular schedule except to the extent required by applicable law, regulation, Nasdaq rules, the Company's charter or bylaws, or the Board. It is expected that the Committee will engage with management approximately four times per year, including through Committee meetings or other discussions with applicable members of management, as appropriate. If the Committee meets, such meetings, at the Committee's discretion, may be in person, by telephone or video conference, or by unanimous written consent. Unless the Committee or the Board adopts other procedures, the provisions of the Company's bylaws, as in effect from time to time and as applicable to meetings of the Board, will govern meetings of the Committee. A quorum for any meeting of the Committee shall be a majority of the members of the Committee.
- **Minutes and Reports**. Minutes of each meeting, if any, will be kept with the regular corporate records. The Committee will periodically report to the Board regarding the Committee's activities.

- **Voting.** Each Committee member shall have one vote and actions at meetings must be approved by a majority of the members present.

4. Reliance.

- **Reliance Permitted**. In carrying out its duties, the Committee may act in reliance on management, outside advisors and experts, as it deems necessary or appropriate.
